Welcome to the Cumbria Area Group

The Cumbria Area Group was formed in the Summer of 2020.

The objective of the group is to ensure that the interests of the members are served by making use of the skills and knowledge inherent in the group, drawing on skills of subject experts and to expand our skills and knowledge through active, open participation.

How do you meet?

We meet on selected Friday afternoons using Zoom. The session usually starts a little before the advertised time to allow getting your microphone and camera(s) working. If there is an advertised speaker that section of the meeting starts as soon after 14:00 as possible.

Often we choose a topic to discuss (e.g Train detection) and then relate experiences and ideas.

The meeting is open to any Electronics / Computer related subject so if you have a question or want to share something just say so.

We welcome new members.
