

MERG in Australia and New Zealand

Video

What is MERG

MERG members are model railway enthusiasts who are interested in applying electronics to the operation of their model railways. The Group enables members to exchange ideas and information, and provides kits covering a number of interests including DC operations, DCC, Radio Frequency Identification, computer control and various other Layout Control Systems. Members have a wide range of knowledge and capability, and include beginners and those who work in the electronics and railway industries.

You can find out more about the MERG by pressing the button below.

Groups in Australia and New Zealand

There are currently four groups in ANZ: -

Australia Capital Territory

The ACT Area Group is the MERG Area Group for Southern NSW and the ACT.

You can find more information about us at

[ACT Website](#)

Date	Event	Description	Location	Link
------	-------	-------------	----------	------

CBUS ANZ

This Special Interest Group exists for members to share their CBUS knowledge and experience to assist each other on their journey. The intent is to ease the journey for those of us in Australia and New Zealand otherwise hampered by a low density of users and a timezone difference of nearly 12 hours to the UK. The focus is the usage of CBUS, either independently or using other software such as JMRI.

You can find more information about us at
