Meetings are held around once a quarter at West Calder Community Centre. January (AGM), April, July and October.

These are more formal than the workshops but still remain a relaxed and inviting affair.

Here we can listen to down to earth talks on key parts of electronics in model railway layouts from people who really know their stuff.

It is a chance to quiz these people too and present our own experiences without fear of ridicule or embarrassment. They are experts for a reason - probably because as we are all experiencing going down the same journey - it is just that some have spend longer than others on that journey and are at different stations down the line.

Workshops

Click here for future workshops

Workshops are held around once a month 10:30 to 15:30.

We normally start with a coffee as everyone arrives and then chat through the aims of the day and

who will do what and who will supervise and assist when needed.

Lunch does happen but the timing depends on what each of us is up to. But it is a good time to talk through issues you may be having with your home layout. No over-bearing advice - just friendly options.

Depending how hard Gary Walinck has pushed us we start to wrap-up between 15:30 and 16:00. Again, this is more quality time to talk through issues and learn how others have tackled, successfully or not, what we may be encountering.
